Anne L. Precythe
Director

State of Missouri
DEPARTMENT OF CORRECTIONS
Improving Lives for Safer Communities

The Board of Probation and Parole is required to uphold the law, to include collecting the Missouri Intervention Fee. Likewise, each probationer or parolee supervised by the Missouri Department of Corrections is required by law to pay the fee, or take responsibility to provide the information necessary to obtain a waiver. Failure to pay the fee can result in a referral to the Department of Revenue to assist in collection. Pursuant to Sections 143.781 through 143.788 RSMo, the Department of Revenue has the authority to intercept your state income tax refund in an effort to satisfy your obligation to pay this fee. Clients carrying Intervention Fee balances of (-\$60.00) or more are subject to seizure. The tax intercept also continues after a client is discharged from supervision, if an arrears balance remains. Furthermore, the Department of Corrections is authorized to collect the fee from available inmate account funds for clients that are incarcerated.

The Intervention Fee is utilized to provide important client services such as community based alcohol, drug, and mental health treatment, in addition to funding residential facilities, community supervision centers, and community based supervision strategies. The statewide collection of Intervention Fees enables the department to provide valuable services, at a substantial savings, to each client.

You are expected to remain in good standing regarding all aspects of your community supervision, including payment of the Intervention Fee. To assist you in making your payments, the department provides the following payment options:

- Online by visiting www.modocfees.com
- Calling 1-855-DOC-IFEE (1-855-362-4333)
- Mail in a payment voucher, along with a money order/cashiers check, to: Missouri Department of Corrections, P.O. Box 1848, Jefferson City, MO. 65102.

Contact your supervising Officer if you require additional information, and please take this opportunity to pay any Intervention Fee arrears balances, and to begin paying the fee each month, as mandated by Missouri statute.

Sincerely,
